

# Upgrade To The Full Version

Enjoying GEN?

Why not upgrade to the full version for even more detailed sound control, effects and a dedicated Max For Live device for controlling GEN from Push.

The full version includes:

- **4 Sound-specific Instruments:** bass, pad, pluck and arp
- **4 GENfx:** dist, space, mod and multi
- **GENcontrol Max For Live devices** for use with Push

You'll also be supporting the development of more great tools for Ableton Live.

Many thanks!
